MR. PENDER AND WESTERN UNION. The new office of the Direct and the French cable sompanies at No. 40 Broadway was opened yesterday. Referring to the published statement that, in consequence of the opening of this independent office, John Pender, of London, had signified his acceptance of a seat in the Western Union Board, Dr. Norvin Green, president of the company, said Yesterday:

pr. Norvin Green, president of the company, said resterday:

"When Mr. Pender returned to England after his election as a director of this company he said that be would hold the matter in abeyance until he had consulted with his people at home. He said that the stockholders of the Direct Cable Company were anxious to have the lines open to public business, and the principal object of his visit to this country was to secure from the Western Union the abrogation of its exclusive contract with the cable companies. His plan apparently was to establish in New-York one central cable office, where the business of all land lines should be received on equal terms. After his return he modified this proposition and the Western Union Company has consented that two companies (the Direct and the French) should open an independent office at their own expense.

"We have had no internation from Mr. Pender that he would accept the directorship if this condition should be compiled with. Our directors do not send us formal letters of acceptance, and I do not know that I expect any from the English directors."

MERCHANTS APPEALING TO THE COURTS.

The recent arbitration case at the Produce Exchange of A. D. Strauss & Co. against Seager Brothers for violation of contract in not carrying 474 tierces of lard on the steamer Polynesia on December 29, and the award to the plaintiffs of \$1.498 21 for losses sustained in non-shipment, has assumed a phase which is likely to end in considerable ill-feeling, if not suspensions. Seager Brothers have appealed from the decision of the Arbitration Committe, and Judge Barrett has granted an injunction against judgment being entered until Saturday, when a hearing will be had relative to continuing the injunction. This is the first case where the decision of the Arbitration Committee has been appealed from to the courts, and the comments thereon are severe, it having been the custom to avoid the courts at the Produce Exchange. The form of agreement signed by both parties in arbitration reads: "And we hereby bind ourselves to abide by such decision as the said committee may render; and in the event of a failure to comply with such decision by either, we hereby authorize and empower the said committee to assess and award the damages arising therefrom." MERCHANTS APPEALING TO THE COURTS.

WOMEN IN COLUMBIA COLLEGE. WOMEN IN COLUMBIA COLLEGE.

The Association for Promoting the Higher Education of Women have decided to present to the Board of Trustees of Columbia College at their next meeting, on February 5, the petition which has been in circulation for some time. This petition has been in circulation for some time. This petition the advantages prayed for in lectures and examinations shall be secured to women being left entirely to the trustees without suggestion from the association. The petition uses this language:

tion. The petition uses this language:

In view of the present state of public opinion, both here and in other countries, touching the justice and expediency of admitting women to the same educational advantages as men, a state of opinion especially evidenced by the recent action of the English Universities of Cambridge and London;

And in view of the influential position of Columbia College as among the oldest and most rically endowed educational institutions in the United States, and preminently representing the intellectual interests of the City of New-York,

You will be pleased to consider how best to extend, with as little delay as possible, to such properly qualifies women as may desire it, the many and great benefits of education in Columbia College, by admitting them to rectures and examinations.

THE FUNERAL OF ROSE IDALEE.

THE FUNERAL OF ROSE IDALEE.

Little Rose Ida Lee, the three-year-old daughter of forn Lee, the Chinese deputys-herifi, was buried from her father's house, No. 4 Mott-st., yesterday afternoon. There was a large attendance, the Celestial, Teutonic and Celtic elements being about equally represented. Tom Lee received the male guests with the gift of a fine cigar—as long as his supply lasted. A badge of white crape and gift ribbon was nailed to the door, and the pictures in the parlor, where the body lay, were covered with white cloth. Services were held according to the rites of the Protestant Episcopal Church, by the Rev. Mr. Kimbey, rector of St. Angustine's Chapel in East Houston-st. Many of Rosie's little playmates were present, and were affected to tears. Mrs. Lee, in deep mourning, stood with her husband near the coffin and controlled her feelings until the body was being removed, when the broke down, crying, "Oh. my Rosie, my Rosie!" Twenty-three carriages followed the hearse to the grave at Evergreen Cemetery. Among those present were ex-Assemblyman Welsh and his wife, who was Rosie's godinother.

STEAMSHIPS WHICH ARE OVERDUE.

SPEAMSHIPS WHICH ARE OVERDUE.

The Inman steamship City of Chester, which should have arrived from Liverpool on Sunday, is one of the many vessels that are overdue. Apprehensions are felt for the safety of some of them. The Main, from Bremen, was due on Sunday; the Devon from Bristol, the Holland from London, the Freja from Havre, the Alvena from the West Indies, and the Tower Hill from Liverpool were due on Monday. The Asia, from Bordeaux, was due here two weeks ago; the St. Olaf from Newcastle, the Thor from Gibraltar, and the Rhodora from Marseilles, were due here ten days ago; the Rhosina from Newport, England, the Sietta from Amsterdam, and the Critic from Newcastle were due here on Friday last.

MRS, GARRICK DEFEATED TEMPORARILY.

The American Rapid Telegraph Company has at length erected a pole in front of the house of Mrs. Catherine Garrick, at No. 671 Lexington-ave. Mrs. Garcick had the laborers of the company arrested a week ago last Monday, when they attempted to place a pole in front of her house. Richard O'Gorman, Jr., who is counsel for Mrs. Garrick, said to a Thibuxe reporter yesterday that the matter was not yet ended. "We shall probably oring a suit for damages against the company," said he, "and there is probability that other persons who have been injured in the same way as Mrs. Garrick by the telegraph company will join with us in the suit."

OFFENSIVE ODORS DOWN-TOWN.

Sanitary Inspector Tracy yesterday sent to the Board of Health another report regarding oftensive odors complained of by inmates of buildings in Fine, John and William-sts. He had ascertained that the odors came from the pipes of the American Steam Heating and Power Company. Several cierks at No. 46 Pine-st, had been attacked with headsches and other complaints due to the odors from the pipes. In the vaults under the buildings at Nos. 37, 38 and 57 John-st, Dr. Tracy found the odors strong. The thermometer registered 80°, the air being heased by the walls of the vaults, which were hot. The Board of Health took no action on the report.

THOUSANDS OF SKATERS IN CENTRAL PARE—FERRY—BOATS DELAYED.

Yesterday was the coldest day of the season. The air was sharp, the ley breezes found the seams in one's clothing. But the great majority of New-Yorkers, as they tred upon the frost-covered pavements yesterday morning, contratulated themselves that the moist and disagrecable weather of a few days ago was gone. The oldest inhabitant was out in force during the morning, and the hoary-headed prevaricators stretched their imaginations and conselences. Although yesterday was many decrees colder than Martin tiself to any degree was not zenerally open the day, the fact that the moreury had shrunk had. APPRAISER HOWARD'S DEFENCE.

Inquiry was made at Appraiser Howard's office vesterday by a Tribune proper as to what reply would be made to the reasons given the Senate Committee by the Treasury Department for removing the Appraiser. It was stated concerning the report of the Brackett Commission that it would be shown that the Commission was packed for the purpose of bringing about Mr. Howard's removal; and that no opportunity was given him to appear before it or to answer charges. The Commission was appointed to examine the expenditures of the Custom House, and the Appraiser says he did not then suppose that it was going out of its way to attack him.

In regard to inarment it will be stated that a department with eleven heads, all independent of each other, and some of them candidates for the place of the chief of the department, can hardly be expected to work in thorough harmony. In answer to the complaint about transfers the Appraiser will show that it has been the custom for forty years to make transfers frequently according to the needs of the service. As to the particular transfers complained of, they were made to oblige Secretary Folger. Mr. Hoyt, who could best be spared from the drug department, we transferred claewhere to make room for the Secretary's friend, Dr. Gregg. When one man is transferred or promoted to a lighter place, promotions or transfers in all the grades below necessarily follow. The case of Mayers, which it is asserted the department will lay stress upon, is a curious one. He came to this country from Earbadoes to testify against the Government pay-toll and he found his way into the Appraiser's office. He was sick and secured a leave of absence for three months with pay, and later an extension without pay. Before his extension expired he desired to be put back on the pay-roil although unfit to do work. His place had been filled by a competent American citizen, who had gone in under the Civil Service rules.

George C. T. Seaman applied for a place in the Appraiser's office, but failed to pass the examination, marki

FRENCH MINISTERS RESIGN. THE POLITICAL PANIC CRITICAL-EXCITEMENT IN THE STOCK MARKET.

LONDON, Jan. 24 .- A dispatch to The Times from Paris says: "Late last evening it was announced that all the Ministers except MM. Duclere, Billot, and Jaureguiberry, had resigned. In case the present Cabinet is definitely overturned a Freycinet-Floquet Ministry is spoken of."

A dispatch from Paris to The Standard says : " The Duclere Cabinet is virtually defunct. The political panie is unabated, and fundholders are throwing their stocks on the market. The want of a guiding star is universally felt. The possibility of a military pronunciamento is freely talked of throughout the bourgeois regime of doctors and journalists, and a yearning for a saving sword. It is certain that the Chambers will adopt M. Flo-quet's proposal. Gambetta's death has thrown the whole working machine of France out of gear."

A dispatch to The Standard from Paris says: "It is hardly possible to overrate the dangerous character the Ministerial crisis has assumed. There were three Cabinet councils on Tuesday. When the news came that the special committee showed a majority against the Government, General Billot, Minister of War, and Admiral Jaureguiberry, Minister of Marine, again resigned. President Grévy urged them not to resign. He said: 'You are a soluter, and you are a sallor. I am quite sure you would never desert your posts under fire, but if you retire now and leave me without a Cabinet that would be

A dispatch from Paris to The Standard says that ex-Empress Engénie will probably leave Paris on SCENES AT THE WRECK OF THE CIMBRIA.

LONDON, Jan. 23 .- The Daily News's Hamburg dispatch says: Several persons were killed by the collision between the Cimbria and the Sultan owing to the flying about of splinters and planks. A passenger in the shrouds begged his neighbors to push him into the sea, he being too much chilled to move himself. They refused to do so, when he let himself fall headlong into the waves. An elderly woman, holding her Bible in her cramped hands woman, holding her Bible in her cramped hands and singing loudly funeral bymns, was washed away from the eeck. Two girls belonging to the Suabian singing troupe, having secured lifebelts, swam about a long time, frantically cryng, "Help! Help! Save us!" The people in the rigging replied, "Come to the rigging; we cannot move." The girls, half benumbed and no longer able to swim, cried out for the last time, "We cannot come," and disappeared beneath the waves.

RIVERS COVERED WITH ICE.

to Hobokee, had considerable difficulty in making their regular trips.

There was considerable ice floating down the bay and through the Narrows, and several small inward-bound vessels were unable to work their way to the city. The consting vessels coming into port were heavily coated with ice about their buils and decks. Hedioc's and Eills is ands are both surrounded with barriers of ice from eight to ten feet in height.

On Staten Island the mercury was below zero in the morning. The Staten Island sound was frozen over, and the ferry-boat Maid of Perth, running from Perth Amboy to Tottenville, had to be laid up.

James Labort, a laborer living near Jamisca, L. L., while returning home after selling a load of hay was frozen to death. The horse went to the stable with its driver frozen stiff and the reins still grasped in hinneds. The bays sround Long Island are entirely frozen over, in some cases sufficiently so to allow teams to be driven across them.
